

**BOPTI, the first crypto currency
Dedicated to the construction industry**

**PRESS RELEASE
N°2017/1001**

BOPTI, a market of 15.5 trillion dollars!

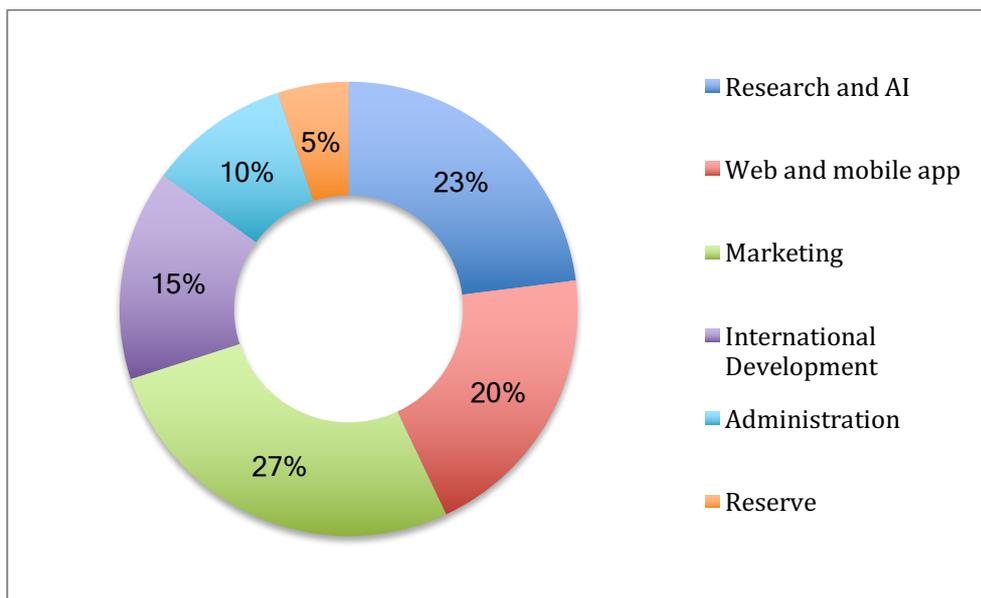

Following the success of Domraider's ICO, the French startup H-EQUITIES launched its ICO on November 10, 2017, in order to create the first Crypto-currency dedicated to the construction industry, a worldwide market valued at 15,5 trillion dollars in 2030. This currency, the BOPTI + (pronounce Be Opti) will create the world's first reward tool for the construction sector.

As a partner of H-IAPPS and its BATOPTI App , BOPTI will be used by small and medium-sized companies in the world to reward their customers, suppliers of small and medium-sized companies in the construction industry, and BATOPTI to reward its users.

H-EQUITIES will issue 200,000,000 token (crypto coin) during this ICO. The token need was estimated by the company at a level of 1.5 billion in 2021 (BATOPTI targets 3,000,000 users by this date), which suggests a sharp increase in the value of the token, based on the blockchain Ethereum. It will be possible to subscribe to the ICO by Credit Card, Transfer, or payment in Bitcoin or Ethereum.

These funds will allow the development of artificial intelligence engines, making crypto currency usable in a very simple way by all users, but also to make the BOPTI+ known on all 5 continents.

Forecast of the raised funds :

**H-EQUITIES, H-IAPPS, 60 rue de la Vallée Amiens le Lab, 80000 AMIENS

BOPTI, the first crypto currency
Dedicated to the construction industry

We are the first to create technology that will revolutionize the construction industry.

Our worldwide reward solution for the construction industry is the first project of its kind. The reason why we want to raise funds is to be the first and the most powerful. Our technology will revolutionize the construction industry. Our technical team works with two A.I. motors to manage the conversion of tokens and agenda synchronization.

A huge market of \$15.5 trillion

PWC estimates that the construction market in 2030 to be valued at approximately \$15.5 trillion. This huge market will be distributed between Major and SME construction companies. BATOPTI is the only worldwide solution for the Construction SME's with many innovative functions. BATOPTI will use BOPTI reward solution.

Exceptional Potential for Growth

With the size of our market, as seen before, we will create a reward system with a limited number of tokens. This system will be used by the BATOPTI community, and by the whole construction industry. The demand will see a huge growth with an estimated demand of 1.5 billion tokens of BOPTI per year in 2021.

An Experienced Complementary International Team

We have an international team made of people from Europe, Asia, and South America, with specialists in finance, crypto-currencies, construction and technology. All of them are brilliant personalities who are confident in the success of the project and give the best of themselves

An existing profitable business

We currently have a working product : a company that already have 4 years of experience, an App that has been downloaded more than 30 000 times on the five continents.

Our Financial Partners

H-iAPPS, the editor of BATOPTI, has raised funds with GROUPAMA PARIS VAL DE LOIRE (100K€ in 2017), a subsidiary of GROUPAMA, one of the leading of insurance companies in Europa and China with AVIC. The Group operates in

BOPTI, the first crypto currency
Dedicated to the construction industry

11 countries, mainly in Europe (Italy, Hungary, Romania, Greece, Portugal, Bulgaria, Slovakia), with worldwide growth opportunities in Turkey and China. Outside France, GROUPAMA employs 7,800 employees to serve over 6 million customers.

Why this reward system ?

H-IAPPS, the first free management solution for small and medium-sized businesses in the world, to develop its user base, sought a solution to reward them and also sponsorships. As soon as 2018, the application BATOPTI, free application of global management for the construction SME will remunerate its users with BOPTI+.
